Help restore Maumee to preserve lakes

I want to express our thanks for the editorial, "Improve the Maumee, improve Great Lakes" (Feb. 13), regarding our recent grants to groups working to improve water quality in the Maumee River and Lake Erie. The efforts of the Nature Conservancy and Environmental Defense, as well as the Indiana residents working with them to help restore the river, deserve strong support.

As the editorial says so well, the health of the Great Lakes is important to all of us, and if we can improve the Maumee, we can improve the Great Lakes as well.

ELLEN S. ALBERDING
